

Spill Containment Products - Spill Kits

55 Gal. / 25 Gal. / 17 Gal.

Response time is crucial when it comes to cleaning a fuel or oil spill on water, dockside or job site. The faster you respond, the easier it is to minimize the damage to the environment and avoid costly fines.

The Standard Spill Kit can be used for jobsites, dockside/marine use and is packaged in a yellow PVC drum w/ lid. The Portable “truck kits” are a compact design and allow for easy placement behind the driver’s seat or in a storage compartment. These kits allow the driver to respond promptly to any petroleum based spill.

	15" x 19" Pads	3" x 4' Socks	18" x 18" Pillows	5" x 10' Boom	Bags w/ Ties	Gloves	Guidebook
55 Gallon Drum Kit	50	8	6	3	4	4	1

Sorbent Capacity - 11.9 Gallons							
17 Gallon Kit (Truck)	15	2	1	-	1	1	1
Sorbent Capacity - 7.8 Gallons							

Our kits utilize oil-only sorbent products. The standard melt-blown pads are quick absorbing and highly versatile for cleaning spills on land and water. These low cost sorbents are ideal for a variety of environmental applications. The socks will not absorb water or water based liquids. The pillows can be used on both land and water for all liquids including acids and bases.

The linkable booms are used to contain and absorb spills on or off water. The built-in stainless steel connectors link booms together to cover large areas of water. Booms are encased with a lint free poly sock that prevents shedding.
